

AI-Powered Global Spare Parts Platform

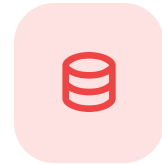

Partner with us to reach thousands of high-intent buyers worldwide. Our platform transforms how distributors connect with garages, workshops, and car owners actively searching for the parts you supply.

DISTRIBUTOR PARTNERSHIP OPPORTUNITY

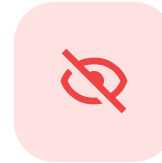

The Challenge vs. The Sawiva Solution

Challenges Facing Distributors

Fragmented Data

Part information scattered across suppliers, regions, and incompatible systems.

Limited Reach

Minimal online visibility to buyers actively searching for your inventory.

Manual Inefficiency

Time-consuming listings and quotation workflows that slow your team down.

How Our Platform Solves Them

Global Discovery Hub

One centralized platform where buyers compare and find parts from distributors worldwide.

AI-Powered Matching

Intelligent search and part identification that connects buyers to your exact inventory.

Automated Data Feeds

Seamless aggregation via FTP/SFTP and REST APIs—no manual entry required.

Connecting You With Serious Buyers

Our platform attracts professional garages, independent workshops, wholesalers, and individual car owners—all actively looking for quality spare parts.

100%

Purchase Intent

Users searching for specific parts they need right now.

Global

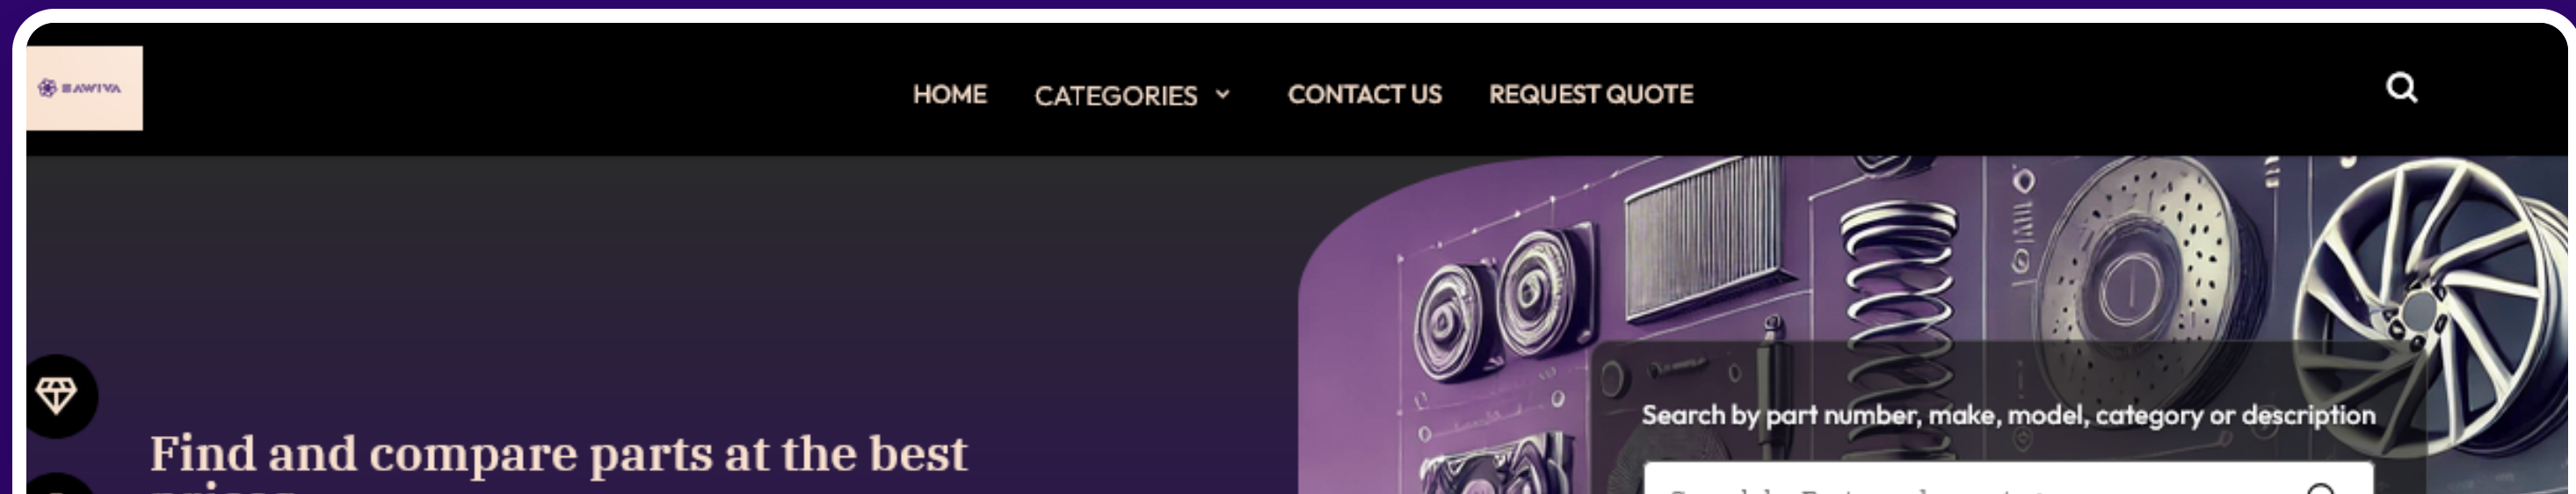

Exposure

Your entire catalog visible to qualified buyers across multiple regions.

Zero

Platform Overhead

We handle the heavy lifting when it comes to attracting traffic and finding high value clients.

Partnership Packages

Choose the program that best fits your business model.
